

Achievement of Universal Immunization Programme for the year 2024-2025 (April 2024 – March 2025)

Universal Immunization Programme (UIP) in Mizoram has achieved notable success across various indicators during April 2024 – March 2025. Key achievements against the planned deliverables are summarized below:

- 1) Full Immunization Coverage (FIC) achieved 95% against the target of 90%
- 2) Hepatitis B birth dose coverage reached 90%, surpassing the target of 85%.
- 3) Dropout rate from Pentavalent 1 to Pentavalent 3 was 2.37%, well below the acceptable 5%.
- 4) Dropout from Pentavalent 3 to MR 1 stood at 4.27%, within the acceptable range.
- 5) Dropout from MR 1 to MR 2 was only 1.62%.
- 6) Td10 vaccine coverage achieved 84%, exceeding the 70% target.
- 7) MR 1 and MR 2 coverage were 96.6% and 95.04% respectively, both surpassing the >95% target.
- 8) U-WIN platform performance recorded a success rate of 92%, above the 90% benchmark.

These outcomes reflect consistent and effective immunization efforts with low dropout rates and high coverage across vaccines.
