

NATIONAL PROGRAMME FOR PREVENTION AND CONTROL OF NON
COMMUNICABLE DISEASES (NP-NCD)

Status of Implementation.

- NPCDCS was launched in Mizoram since March, 2014 and currently the programme was implemented in all districts namely Aizawl, Champhai, Kolasib, Mamit, Lawngtlai, Lunglei, Serchhip & Siahla District.

Objectives of NPCDCS

- Health promotion through behavior change with involvement of community, civil society, community based organizations, media etc.
- Opportunistic screening at all levels in the health care delivery system from subcentre and above for early detection of diabetes, hypertension and common cancers. Outreach camps are also envisaged.
- To prevent and control chronic Non-Communicable diseases, especially Cancer, Diabetes, CVDs and Stroke.
- To build capacity at various levels of health care for prevention, early diagnosis, treatment, IEC/BCC, operational research and rehabilitation.
- To support for diagnosis and cost effective treatment at primary, secondary and tertiary levels of health care.
- To support for development of database of NCDs through Surveillance System and to monitor NCD morbidity and mortality and risk factors.
